SAN BEDA COLLEGE CONFERS
DOCTOR OF HUMANITIES, HONORIS CAUSA ON
THE MOST REV. LUIS ANTONIO G. TAGLE, D.D., S.T.D.
ARCHBISHOP OF MANILA

San Beda College will confer the degree of Doctorate in Humanities, *Honoris Causa*, on His Excellency, The Most Rev. Luis Antonio G. Tagle, D.D., S.T.D. at a Special Academic Convocation on Friday, the [illegible] of March [illegible] where he will also deliver the commencement address at the [illegible] Commencement Exercises of San Beda College in Mendiola, Manila.

In a petition to the Commission on Higher Education, San Beda College, through its Board of Trustees led by Chairman Dr. Manuel V. Pangilinan, wrote that the Archbishop deserves this honor from the school for he embodies San Beda College's ideals of *Fides* (Faith), *Mores* (Virtue), and *Scientia* (Knowledge).

FIDES. Archbishop Tagle is a person whose unwavering faith in the Most Blessed Trinity, the Holy Catholic and Apostolic Church, and devotion to the Virgin Mary, the Most Holy Mother of God, has guided his ministry as priest and bishop in the Diocese of Imus. And now as the Archbishop of Manila, the same faith will empower him in shepherding his new flock. Prayer has been and will always be the highest expression of one's commitment to the Catholic Faith. As a man of prayer, Archbishop Tagle has made faith as the very foundation of his ministry in the Church of Christ founded upon the Apostles.

Archbishop Tagle is an Elected Member of the Council of the Synod of Bishops, Vatican, from 2005-present. He is also currently a Member of the Office of Theological Concerns, FABC, and Chairperson of the Episcopal Commission on the Doctrine of the Faith, CBCP.

MORES. Archbishop Tagle's love for the poor and the less fortunate drives him to work selflessly as a priest and bishop. His genuine concern for the poor also forms his theological teachings, ever anchoring the sufferings of man in the redemptive sacrifice of Jesus Christ on the cross. Moreover, evangelization lies at the very heart of the Archbishop's ministry as a servant of Jesus Christ. Archbishop Tagle believes that only in living out the virtues taught in the Gospels authentically can one effectively evangelize others. When the Pondo ng Pinoy Community Foundation was set up in 2005, then Bishop Tagle of Imus was called upon to head its Programs Committee and was part of the foundation's board from 2005-2011. As the Archbishop of Manila, he becomes chair of Pondo ng Pinoy.

SCIENTIA. Archbishop Tagle has never ceased in his search for the Truth. A holder of a Licentiate in Sacred Theology and Doctorate in Sacred Theology from the Catholic University of America, his devotion to push the boundaries of theological knowledge during his postgraduate work was attested by his dissertation adviser, the well-respected theologian Rev. Fr. Dr. Joseph A. Komonchak. As a theologian of first rank, Archbishop Tagle worked as a member of the International Theological Commission, advising the then Cardinal Joseph Ratzinger, Head of the Congregation for the Doctrine of the Faith. He has also demonstrated his theological expertise when he worked in the Special Assembly of the Synod of Bishops for Asia in 1998, and presently in his capacity as Chairman of the Episcopal Commission on the Doctrine of the Faith.

Archbishop Tagle is considered the consummate teacher and communicator, explaining with clarity, talking about theology with a smiling face and unhurried language in the halls of colleges and universities as well as through the mass media. Through all of the countless recognitions bestowed on him, Archbishop Tagle remains steadfast on the one [illegible]: "It is the Lord who is the star with the everlasting light, dazzling brilliance, and magnificent flame." Archbishop Luis Antonio G. Tagle continues to say, "It is the Lord!" Let us follow Him and recognize Him in one another.

THE YEAR OF THE ELANTRA

2012. The Chinese zodiac names 2012 as the Year of the Water Dragon. And in Asian astrology, this year is special and the dragon is located to rule the year. Holding special significance for many, the dragon is seen as a proud and almighty king, a symbol of power, superiority and rule.

If so, then we can call 2012 the Year of the Elantra. First winning the 2012 North American Car of the Year Award, then followed by two more significant global wins: the 2012 Canadian Car of the Year and the 2012 South African Car of the Year. Truly a symbol of power, superiority and rule for others to follow.

"Elantra's appeal to the success of our vision of bold design and great fuel economy. In a year with some truly breakthrough competitors, we are honored that the jury recognized Elantra for its lasting impact on the industry," said John Krafcik, President and CEO, Hyundai Motor America.

"The all-new Elantra was simply the single most important new vehicle that Hyundai has ever launched, so to win Canadian Car of the Year is vindication for all the effort Hyundai designers and engineers invested into the project," said Steve Kelleher, President and CEO, Hyundai Auto Canada Corp.

"This award is confirmation of the giant strides that the Hyundai brand has made locally and globally. It is also recognition of the quality and emotional appeal that the Hyundai products have developed as part of the brand's 'Modern Premium' strategy," said Alan Ross, Managing Director of Hyundai Automotive South Africa.

And now the 2012 Elantra continues to show its world dominance in the [illegible] with yet another victory on the Philippine shores.

Announced on the evening of March 20, 2012 during a special awarding ceremony at the Philippine Trade Training Center in Pasay City, the Hyundai Elantra took the prestigious title of the 2012 Philippine Car of the Year. Presented by the Car Awards Group, Inc. (CAGI), Hyundai Asia Resources, Inc. President and CEO Ma. Fe Perez-Agudo proudly accepted the award. "This is indeed the year of the Elantra. This award, together with the COTY awards from North America, Canada and South Africa, is proof of Hyundai's commitment to consistently seek and answer the lifestyle and evolving needs of our growing number of customers."

The Car of the Year awards is an annual consumer-oriented event organized by CAGI, a non-stock, non-profit organization composed of more than 30 motoring journalists from radio, print, broadcast and online media outlets. Now on its 6th year, CAGI is once again on the search for the country's best on four wheels.

All entrants in this year's COTY were subject to a stringent scrutiny on both qualitative and technical aspects. The "look" and "feel" of each vehicle were subjectively judged by each CAGI member's extensive experience in the field and at the same time hands-on technical tests were also conducted to determine the best acceleration, braking, [illegible] and handling performance of each vehicle.

Well-crafted design, impressively smooth performance and cutting-edge technology, the 2012 Hyundai Elantra flows through the competition as a wind of change for overall value and performance.

Check out and test drive the 2012 Hyundai Elantra today at the Manila International Auto Show at the World Trade Center from March 29 to April 1, 2012. Drive a winner for it's the year of the Elantra.

[illegible]

DBP Development Bank of the Philippines

INVITATION TO BID

The Development Bank of the Philippines is inviting interested bidders to apply for eligibility and to bid for the:

Project	Quantity	Approved Budget for the Contract/ Source of Fund: DBP Fund	Cost of Bid Documents
Hiring of Contractor for the Waterproofing of Roof Deck, Ballpark and Canopies at the DBP Head Office Building, Makati City	1 Lot	₱[illegible]	₱[illegible]

[illegible]

Project Completion: [illegible]

Schedule of Activities

Particulars	Date	Venue
Pre-Bidding Conference	April [illegible], 2012 (Friday) at [illegible]	[illegible] Floor, DBP Building, Makati City
Submission of Eligibility Requirement Documents, Technical and Financial Proposals	[illegible] April [illegible], 2012 (Friday)	BAC Secretariat, [illegible] Floor, DBP Building, Makati City
Opening of Eligibility Requirement Documents, Technical and Financial Proposals	April [illegible], 2012 (Friday) at [illegible]	[illegible] Floor, DBP Building, Makati City

Bidding will be conducted through open competitive bidding procedures as specified in the revised IRR of R.A. 9184 and is restricted to Filipino citizens or organizations with at least seventy-five percent (75%) interest belonging to citizens of the Philippines. Only bids from bidders who passed the eligibility check will be opened. The bidder with the Lowest Calculated Bid (LCB) shall undergo the post-qualification stage in order to finally determine responsiveness of the bid to technical and financial requirements of the project. The contract shall then be awarded to the Lowest Calculated and Responsive Bidder (LCRB) who was determined as such during post-qualification procedure.

Interested parties may download these forms at www.dbp.ph [illegible] at the Electronic Procurement Service of the Department of Budget and Management. Prospective bidders may secure the bid documents and Eligibility Requirement Forms from the BAC Secretariat, [illegible] Floor, DBP Building, Makati City, upon payment of a **non-refundable fee of ₱[illegible] (cost of bid documents).**

The prospective bidders are advised to check the Bank's website and the Philippine Government Electronic Procurement System (PhilGEPS) for bid bulletin and announcements regarding the project.

The Bank reserves the right to reject any and all bids, annul the bidding process, or not award the contract at any time prior to contract award, without thereby incurring any liability to the affected bidder or bidders.

For further inquiries, please call telephone numbers: [illegible] loc. [illegible].

OBITUARIES

[illegible]

Jose I. David, Sr.

passed away peacefully in the grace of our Lord on March 27, 2012.

His beloved wife, children, [illegible] other relatives and friends request the [illegible] to pray for the eternal repose of his soul.

His remains lie in state at Chapel 3 Loyola - Commonwealth, Quezon City.

His interment will be at Serenity Memorial Park Caloocan on Sunday, April 01, 2012 at 9:00 am.

Loyola – Commonwealth, Inc.

In your moment of grief... The Philippine STAR has printed the list of funeral parlors and parishes around you to facilitate the placement of your obituary advertisements.

When the grieving ends and the healing begins
Memorial Services
HAVEN OF ANGELS
MEMORIAL CHAPELS & CREMATORIUM

GARDEN OF MEMORIES MEMORIAL PARK & CHAPELS, INC.

The Garden of Memories Memorial Park & Chapels, Inc., would like to clarify that the company is not one of those pre-need plan companies whose license were revoked/terminated by the Insurance Commission.

In 2003, Garden of Memories Memorial Park & Life Plan, Inc. decided to voluntarily cancel its Permit to Sell pre-need life plans to be able to concentrate on its core value products and services which is memorial park and funeral/mortuary services.

The petition for voluntary cancellation of Registration Statement and Certificate of Permit to Sell was approved by the Securities and Exchange Commission (the government agency handling pre-need plan companies then) on October, 2003. Thus, since that date, the Company has not been selling pre-need life plans. The SEC order also included the approval of the amendment of the company's corporate name, primary purposes and capitalization.

The company would like to stress that its trust fund is fully funded and highly liquid, and it can more than adequately service the claims of their plan holders for funeral services when the need arises.

Making Science Learning Fun

By Joy Angelica Subido

"The most exciting phrase to hear in science, the one that heralds the most discoveries is not 'Eureka!' (I found it), but 'That's funny,'" says Isaac Asimov, biochemistry professor and science fiction writer. By encouraging each child's intrinsic inquisitiveness and making science learning interesting so that it becomes akin to play, the Mind Museum at the Bonifacio Global City aims to boost creativity, encourage resourcefulness and promote originality. The objective behind the ingenious exhibits is to provide fresh insight, encourage enthusiasm and create a passion for learning — a mindset befitting a place like the Bonifacio Global City that seeks to become the "home of passionate minds."

What was a field plot some years ago has now come to its fruition. The Mind Museum, housed in a Lor Calma and Partners building with a "futuristic, yet organic look inspired by cellular growth and structure," formally opened its doors to the public on March 16. The ambitious project is one of the undertakings of the Bonifacio Art Foundation, Inc. (BAFI), a foundation established by Fort Bonifacio Development Corporation (FBDC), developer of Bonifacio Global City, to provide an exciting arts program and create an environment of constant artistic renewal for its present and future residents. Apart from distinctive art installations that are placed throughout the area, the world-class science museum is an integral element of BAFI's vision to enrich art and support learning and appreciation environment in the locale.

"What makes the museum unique is that at least 90 percent of the exhibits were designed and made by Filipinos," says Manny A. Blas II, managing director of BAFI and head for commercial operations of Fort Bonifacio Development Corporation. He explains that behind each exhibit is a team consisting of a designer to make it interesting and unique, a scientist to ascertain that a display adheres to scientific principle or facts and an engineer to make sure that the exhibit works well and is durable enough to withstand child's play. "I think we are one of the very few that tapped the local talent. The local community worked together to think up and fabricate every exhibit in the museum," shares Blas. "We worked with about 30 designers, 30 scientists and engineers and around 15 Filipino fabricators. We found out later that some of these fabricators created science exhibits abroad. What makes The Mind Museum distinct is that it is for the most part proudly 'Filipino-made,' a veritable showcase of Filipino talent."

A key element is fun, and the visitors of all ages are encouraged to play with the interactive displays. Currently, there are 250 exhibits in five main areas. The main halls in the museum consist of the Atom, Life, Earth, Universe and Technology Galleries. The Mind Museum can comfortably accommodate 600 visitors for each 3-hour visit. Depending on a visitor's particular interests, some exhibits are more popular than others. There is the Van de Graaff Static Ball in The Atom Gallery that demonstrates electrostatic energy by making visitors' hair stand on end as they touch the static ball, and a Tyrannosaurus rex cast [illegible] in the Earth Gallery. There is an open-mist theater with a 180-degree screen that will feature 4.6 billion years of natural history in 12 minutes — a first of its kind in Asia, and The Human Brain, a large walk-thru exhibit where one is able to identify what part of the brain lights up when one senses, feels or thinks. Outdoors, there is a Botanical Garden which identifies scientific and common names of featured plants, as well as a Science in the Park that is divided into Music, Math, Living and Planet thematic pockets.

The Mind Museum is a collaborative effort, and owes much to the vision and support of various private and corporate entities. "Our founding donors have gone out of their way to find within their corporate mission and scope, to support the creation of The Mind Museum through the changing economic climates," said Manny Blas.

The outdoor "sustainability exhibit" was what corporate donor HSBC chose to support. "We wanted to make sure that it fit in with our global corporate sustainability priorities," explains Johanna Garcia, SVP and Head of Group Communications and Corporate Sustainability. Blas stresses, however, that scientists and designers of The Mind Museum were given free rein in creation of aesthetics and content.

The HSBC's Group's global CS priorities are environment and education," says Peter Crippa, HSBC Philippines president and CEO. "We've been able to address both by supporting The Mind Museum." HSBC is a major donor and was one of the first companies to commit to the project.

"Given the global parameters, we identify NGO partners that mirror our objectives and develop programs that address our mutually shared goals," adds Crippa.

"We want this to be a sustainable partnership," says Crippa. Undoubtedly, HSBC's belief in the goals of The Mind Museum will benefit all children regardless of social stature. The plan is to provide tickets for underprivileged children so that they, too, can enjoy and learn from the museum and hold employee engagement activities in the facility. "We like to get our staff involved."

"We know the relationship between level of science and technology in a country is directly related to its level of economic development," says Manny Blas. "We want to engage our youth to take up the sciences, and the phrase we like to use is that [illegible] because we want to make this an artistic museum. Our intent was to communicate science principles in an artistic manner that will arouse curiosity and interest. Essentially, we like our visitors to realize that science isn't threatening, that it isn't drudgery. And maybe, we can encourage more people to go into the fields of science so that we can build a progressive country."

Blas reveals: "That HSBC supported us early on was a big help to us. Their support was important because it took a while to build momentum. People were watching who got involved. But when early donors such as HSBC lent their support, it became easier for us afterwards."

Cook up a storm with [illegible] Early Learning Centre

The first Early Learning Centre toy shop in the Philippines is located at the ground floor of [illegible] Building along 5th Avenue and 28th Street in Fort Bonifacio.

A SHOP WHERE LEARNING IS FUN

There's a new toy shop in town called Early Learning Centre and it's a magical place of delight and discovery to babies, children and parents across the world. It has unique and innovative toys designed by experts to help children develop as they play and learn. To children, the most important part of their day is playtime. Children discover lots of their play, which is why the early years matter the most in a child's development.

If you're a parent who wants your kids to learn while having fun, ELC is the go-to brand. For over [illegible] years, ELC has been helping children to have fun and learn while they play. ELC toys are sure to generate laughter, build emotions, develop curiosity, spark imagination and create joy.

The shop allows toys to play with and try out, so imagination and inspiring play [illegible], and its friendly and knowledgeable staff will help you find the right toys for every occasion and development stage.

Parents and babies can set out on the journey of childhood and discover the world together from the ELC baby & toddler category, where toys are designed with a child's developmental stage in mind. [illegible]

At Early Learning Centre, there you'll find the perfect toy that [illegible] while they're having fun.

With over 200 stores around the globe across [illegible] countries, ELC has been inspiring [illegible]. The first Early Learning Centre toy shop in the Philippines is located at the ground floor of [illegible] Building along 5th Avenue and 28th Street in Fort Bonifacio.

Home Sweet Home

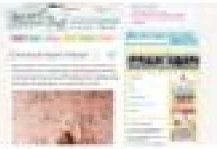
From B-1

While fashionistas have personal style blogs and beauty addicts, beauty review blogs to visit every day, those whose interests lean toward more on interior design shouldn't feel left out with the growing number of interesting design blogs that have been popping up in cyberspace. From those with a touch of kitsch to something more homey or those that have more modern style aesthetics, here we share some of our favorites.

Design Sponge (http://www.designsponge.com)

One of the most popular online resources for interior design, this site provides a lot of interesting design inspirations by theme (like the one inspired by the [illegible] movie [illegible]) featuring [illegible] and [illegible] complete with product recommendations [illegible] price and where to get them). It's definitely a charming site for designers as it also provides fun DIY projects and a special break pass to some of the world's most stylish homes. Even if you're not much into interior design, this site will definitely get you in the mood to start doing some design tweaks in your house here and there.



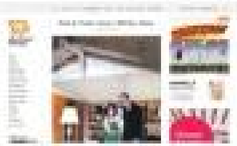
decor8 (http://decor8blog.com)

Founded by Bostonian author, freelance journalist and interior design consultant, Holly Becker, decor8 has been around since January 2006 — long before the big boom on design blogs. After leaving a decade-long stint in the corporate world as a project manager, Becker decided to start writing about topics that she's passionate about and live a more creative life while encouraging others to do the same. Aside from decor8 Becker also has a bestselling interior design book, Decorate: 1,000 Inspirational Ideas for Every Room in Your Home. Going back to decor8, if you like designs that have a touch of whimsy, then its series of design projects and inspiration posts are sure to be a delight.

design milk (http://design-milk.com)

For those with a penchant for art and design, then Design Milk's selection of inspiring, modern, and unique artworks, products, and whatnots is a [illegible]

design [illegible] can be expected. It's always for a pleasant surprise. Do take note though that Design Milk is just meant [illegible] and [illegible] complemented by high-quality photos and good copy.



Apartment Therapy (http://www.apartmenttherapy.com)

From space solutions to design inspirations, Apartment Therapy offers a helpful guide from everyday design ideas to special features on stylish homes you'll be envious of. Other fun things from this site include DIY projects for every room in the house and special tips on how to maintain a happy household. If you're a big homebody then enjoy a daily dose of Apartment Therapy.

Habitually Chic (http://habituallychic.blogspot.com)

From the elegant to the extravagant, Habitually Chic has collected a visually stimulating selection of design inspirations that go beyond home style. Curated by New York-based interior designer Heather Clawson, Habitually Chic gives readers a sneak peek on how to live a designed life.

cw home depot soft opens Las Piñas Branch

CW Home Depot, your building and construction home, just unveiled another milestone by soft opening its latest branch in Las Piñas City.

The seventh CW Home Depot branch is situated in the sprawling 1 hectare lot of SM Hypermarket — Alabang Zapote Road in Las Piñas. This is the Depot's first attempt to totally step out of its comfort zone by situating outside its own [illegible] and integrated itself with commercial retail and supermarket [illegible]. It will also enable them to be of service to more and more homeowners and trade professionals appreciating the convenience and advantages of shopping in a one-stop shop home center. Moreover, the approximately 4,000 sq.m. CW Home Depot — Las Piñas branch will be the Depot's first ever branch to house all its other divisions in one floor: Home Interior Superstore, Home Builders' Superstore, Home Appliance Superstore, and Specialty Stores.

Visit CW Home Depot — Las Piñas at [illegible], Alabang Zapote Road, Las Piñas City with telephone numbers [illegible] and [illegible].

CW Home Depot is a joint venture of Cebu Oriental Hardware Inc. and WestPoint Industrial Sales Co. It has seven existing branches located at Ortigas, Alabang, Balintawak, Makati, Manila Bay, Pampanga, and the recently opened Las Piñas. For updates on CW Home Depot activities and events, visit www.cwhomedepot.com or add its Facebook account: http://facebook.com/cwhomedepot.

Swipe for Shopping Convenience

With the summer season soon to be in full swing, expect malls to have a lot of fun entertainment events coupled with the (always) much-awaited shopping sales. Whether it be here or abroad, it's always handy to shop with your credit or debit card, here's why.

No need to look for an ATM machine.

Mobile Madness

From high-tech smartphones to fun apps and useful accessories, we here at The Philippine STAR can't get enough of the mobile madness that is sweeping across a multitude of mediums. No longer restricted to text messaging and calling, mobile phones have evolved into handheld wonders that are now an inextricable part of one's life. Just in time for pay day, here's a personal mini guide on cellphones and accessories.

SUN CELLULAR LAUNCHES NEW POSTPAID PLAN 250

Following its intensified network expansion program, Sun Cellular launched its first salvo of more and better value postpaid plans, the Postpaid Plan 250 initially available in Mindanao.

"Given the immense demand for Sun Cellular's best-value services in Mindanao, we have specifically chosen the region as our pilot area for this subscription plan offering," says Pedro Pena, Senior Vice President for Postpaid and New Business.

For only Php250.00 per month, subscribers to this new postpaid plan includes unlimited Sun-to-Sun texts, four hours of Sun-to-Sun calls, 300 texts to other networks plus a free Samsung E1080 phone. This plan is perfect for those who want to enjoy unlimited texting and will be able to call their friends and loved ones from time to time. Also with the generous allocation of texts to other networks, the plan will also attract those who want to stay in touch but do not want to spend too much.

Sun Cellular has been the preferred choice of over 80% of new postpaid plan subscribers for the past 5 years. Its postpaid subscriber base continues to grow steadily, increasing by more than 30% year-over-year in January of 2012 versus the same period last year.

"This 2012, we are focusing on boosting our network signal strength by augmenting and optimizing our existing cell sites, and taking advantage of synergies with our sister companies in the PLDT Group. Our extensive network strengthening campaign will be complemented with products that best suit the needs of the locals in the areas we are expanding to," Pena revealed.

Pena also expressed his confidence on the enhanced coverage in Mindanao: "As we move to further establishing a more extensive network, our subscribers in Mindanao may now enjoy our best-value postpaid plans in areas where before we were not present," he adds. "They will also benefit customers in other areas outside Mindanao as they can now get in touch with their family and other loved ones in the new areas we are now in using their Sun Cellular lines."

The first wave of these network enhancement efforts are now being felt in the areas of [illegible] and Lanao del Sur, [illegible], Camiguin, Zamboanga, Tawi-Tawi, Dinagat Island, Compostela Valley, Sulu, Bukidnon, Cagayan de Oro, Davao del Sur among others.

Sun Cellular is a member of the PLDT Group.

NECESSARY ACCESSORIES

By [illegible]

Cellular phones have evidently become necessities, not only among adults, but to teenagers as well. Everyone now has one — sometimes two or three. These digital tools that keep us connected are in fact extensions of ourselves.

Hot Apps for Android and iOS

By [illegible] ESTRELLA AND [illegible] FRANCISCO

Cellphones have truly become our personal mini-computers. Sending SMS and calling are now only two of the hundreds of functions our cellphones can perform. With the help of mobile applications, we can do more with our phones from creating documents to playing games.

Here are four much-loved applications for two of the most popular operating systems: iOS and Android. If you don't have them yet, better download them now. There's no reason not to, since they're all for free.

Evernote

Evernote promises to serve as an extension of your brain. It has [illegible] being one of the best productivity applications for both iOS and Android because of its simplicity and functionality. You can make to-do lists, capture photos and add notations, record a voice memo and save clippings from all over the web. Notes stored on your mobile device will be automatically synced to other devices [illegible] laptop or desktop, making them easy to create and retrieve from anywhere you are. No matter what your lifestyle is — whether you are a businessman, a student, or a busy mom — you'll find Evernote useful and easy to use.

Temple Run

A fun and addicting app which tests your hand-eye coordination, Temple Run is considered as one of the most successful game apps on the iTunes App Store. The game was developed by Washington D.C.-based company Imangi Studios and has been in the top 50 most downloaded apps since December 2011 and eventually became the number one free app of the iTunes App Store. The game involves navigating a fleeing man from monkeys after stealing an idol from a temple, using your fingers by swiping the screen left and right and by making the character jump or slide to avoid collision with large tree roots or incomplete temple roads. The game can be so addicting and is a perfect distraction when you're stuck in traffic, waiting for your date, or in a 15-hour flight. The good thing is that you can brag about your score via Facebook and Twitter and let your friends know you have good hand-eye coordination.

Draw Something

Put those doodling skills to good use. Developed by OMGPOP, the Draw Something app won the iTunes App Spotlight Awards in 2012. The game has been downloaded [illegible] million times since its release on February [illegible]. It has now become one of the most popular social drawing games in the world. The app is a twist to the popular game Pictionary and involves quick sketches that need to be guessed by a friend or a stranger. The app is available as a free download with ads or can be purchased at the iTunes App Store for an ad-free version with extra features.

Androidify

That cute green android icon is one of the easily recognizable images in the digital world. Android users can now turn that figure into a version of their friends and family members by dressing it up. "Androidify" allows the user to rename the Android icon, put clothes and accessories on it, and even give it a chat bubble. It is not only a fun app [illegible] the time; you can draw images of people you've "androidified" by uploading them on different social networking sites and use them as icons for your contacts.

DESIGNED AROUND YOU

VOLVO'S NEW APPROACH TO LUXURY.

THE PURPOSE OF OUR EXISTENCE, THE BACKBONE OF OUR WAYS, HAS ALWAYS BEEN TO DESIGN EVERYTHING AROUND PEOPLE... WHEN WE TALK ABOUT LUXURY, WE DON'T MEAN [illegible] EXTRAVAGANCE AND MEANINGLESS EXCESS. LUXURY TO US IS THE EMOTION THAT OUR CUSTOMERS FEEL WHEN THEY ENGAGE WITH US. IT IS THE SIMPLICITY THAT MAKES FOR BETTER UNDERSTANDING, THE FEELING OF SPACE, CONTROL, CALM, COMFORT AND SECURITY" - [illegible]

Designed Around You (DAY) is the current global thinking of Volvo. It points out the direction of Volvo's future brand development, and the key word is human. Because every detail of a Volvo car, there is a human thought and skill of a designer, a purchaser, an engineer, a marketer and many more. Designed Around You is about interaction, intimacy and the consideration of a person's every need, which translates to the highest form of luxury in life. This essence of designed around you is translated to every aspect of the Volvo brand - from the vehicles to its stewards to the ownership experience.

DETAILS DESIGNED AROUND YOU:
FUNCTIONAL + NATURAL

At Volvo, everything is designed around you; [illegible] with good functional value.

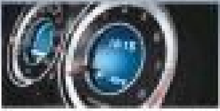
Volvo Sensus is a unique Volvo interface which allows you to conveniently access and personalize your infotainment, navigation, car setting and other features and functionality.

The Volvo Sensus for example, is an intuitive command center designed by Volvo. With an integrated thumb scroll on the steering wheel, you have full control of the car and all its on-board entertainment, navigation, park assist camera and Bluetooth® communication systems – with both hands on the steering wheel. Convenient, smart and definitely high-tech – never before has total control been so easy to achieve.

Volvo vehicles are always designed with functional [illegible]

PERFORMANCE DESIGNED AROUND YOU:
ENGAGING + ENTERTAINING

Every Volvo engine is built to do more with less: respond instantly with plenty of torque throughout the entire rev range and do so using less fuel.



[illegible]

Advanced engine technology such as a new turbo system helps increase torque over a wide speed range and enhance power at high revs. And with the Dynamic Stability and Traction Control (DSTC) that now features Advanced Stability Control and Corner Traction Control by Torque Vectoring as part of the kit, optimum driving is at the next level. The ASC individual feature makes it possible to identify skidding tendencies at a very early stage, thus improving handling and stability allowing a more dynamic driving experience.

[illegible]

SAFETY DESIGNED AROUND YOU:
INNOVATIVE + INTUITIVE

Volvo thinks about your safety first always. That is why Volvo cars include a host of preventive safety systems to help stop accidents from happening in the first place. Because when it comes to safety, Volvo always expects the unexpected – and nowhere is this more evident than in urban traffic. That's why the advanced low-speed collision avoidance system City Safety comes as standard in every Volvo vehicle*. If a vehicle suddenly brakes in front of you and a collision is imminent, City Safety will intervene and brake automatically to help stop low-speed collisions from happening. Knowing you're safe, just adds to the fun of driving.

[illegible]

From making sure you're informed and alert, to cutting edge preventive safety systems, every element of your Volvo works together to help you avoid accidents.

LIFESTYLE DESIGNED AROUND YOU:
LUXURY + SIMPLICITY

[illegible]

Comfort and Luxury are synonymous with Designed Around You. That's why with Volvo, you can find your perfect driving position with push-button ease. The driver's seat also incorporates a memory function that stores three adjustable seat and door mirror settings connected to a specific remote control – a feature that's appreciated when the car has several drivers.

[illegible]

That is what Volvo Cars is all about. It is contemporary luxury packed with the strength of Volvo engineering ingenuity. With every Volvo, you are assured that your car is Designed Around You.
